Note:

Currency translation adjustments on foreign subsidiaries, associates and joint ventures are mainly a result of the Group's exposure to the effects of fluctuations in foreign currency exchange rates in relation to Chinese Renminbi as the Group's investment properties and projects are situated in the People's Republic of China. Whenever possible, the Group seeks to maintain a natural hedge through the matching of liabilities, including borrowings, against assets in the same currency. Share of other comprehensive income/(expense) of associates and joint ventures mainly relate to similar currency translation adjustments.

Changes in fair value of available-for-sale financial assets mainly relate to fluctuations in the fair value of the Group's investments in Shui On Land Ltd, which are classified under Investments (Non-current assets), as well as Top Spring International Holdings Limited ("Top Spring") up to 1 July 2014.

1(a) (ii) Revenue

Revenue of the Group comprises sales of goods and services and net commission from concessionaires.

Revenue of the Group reported on a gross transaction basis, which includes the value of the overall activity of the Group based on the gross value achieved by the concessionaire on the sale, is presented as follows:-

Note:

The Group, in 2QFY2016, equity accounted for Top Spring's latest available results, which were for the quarter ended 30 June 2015, after making adjustment for such gain or loss on properties under development for sale, already initially recognised in arriving at acquisition date fair value.

* On 1 July 2014, the Group treated its investment in Top Spring as that of an associate and equity accounted for Top Spring from that acquisition date. In accordance with FRS 103, the Group performed an exercise to ascertain the acquisition date fair value of the identifiable assets and liabilities of Top Spring. Based on the professional valuers' report, a transitional negative goodwill of \$59.3 million representing the excess of the Group's share of the acquisition date fair value of Top Spring's net identifiable assets over the purchase consideration of Top Spring that was carried in the Group's balance sheet as at 1 July 2014, was recognised by the Group in 2QFY2015.

In this instance, the excess arose mainly because Top Spring treats properties under development for sale, classified under inventories, at cost and accounts for sales on the completed contract method whereas acquisition date fair value takes into account the price that would be received to sell the properties under development in an orderly transaction between market participants at measurement date being 1 July 2014.

Note:

Results of joint ventures include the results of Metro City, Metro Tower, EC Mall and The Crest.

* The non-operating results of joint ventures of \$53.7 million for the half year ended 30 September 2015 refer to a divestment gain from the disposal of the Group's effective interest of 50% in the joint ventures owning EC Mall, Beijing, People's Republic of China in 1QFY2016. This included exchange differences on translation and other reserves of the joint ventures, totaling \$12.3 million, transferred to profit or loss upon disposal. The taxation charge includes a tax expense incurred in respect of this divestment gain of \$12.0 million.

Other expenses relating to this divestment, offset by realised exchange gains on repayment of shareholders loans, totaling about \$3.6 million are classified under general and administrative expenses of the Group of \$18.2 million for the half year ended 30 September 2015.

The tax charge of the Group for the second quarter period ended 30 September 2015, excluding share of results of associates and joint ventures which is already stated net of tax, is lower than that derived by applying the Singapore statutory income tax rate of 17% applicable to company profits, mainly due to certain foreign exchange gain and a gain on disposal of an investment property, which are not taxable for tax purposes.

There is a tax charge of the Group for the period ended 30 September 2015 in spite of a loss, excluding share of results of associates and joint ventures which is already stated net of tax, mainly due to tax charges on dividend income from associates and joint ventures which are eliminated on consolidation, offset by income which are not taxable for tax purposes.

Earnings per ordinary share based on net profit attributable to shareholders and after deducting any provision for preference dividends		period
(a) Based on existing issued share capital	2.2 cents	7.4 cents

7. <u>Net asset value (for the issuer and group) per ordinary share based on the total number of issued shares excluding treasury shares of the issuer at the end of the (a) current financial period reported on and (b) immediately preceding financial year</u>

reported on		
(a) Current Period	\$1.67	\$0.45
(b) 31 March 2015	\$1.66	\$0.33

Net asset value for the Group is calculated on the equity attributable to owners of the Company as at 30 September 2015 of \$1,381,810,000 (31 March 2015: \$1,373,967,000) divided by the total number of issued shares excluding treasury shares as at 30 September 2015 of 828,035,874 (31 March 2015: 828,035,874).

8. <u>A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. 8(a) <u>Review of Group Results for 2nd Quarter ended 30 September 2015 against 2nd Quarter ended</u> 30 September 2014

The Group's turnover of \$38.3 million for the second financial quarter to 30 September 2015 ("2QFY2016"), increased by 22.3% over 2QFY2015's \$31.3 million due to higher turnover reported by the retail division as the new store at Metro Centrepoint commenced operations in 3QFY2015. Gross profit for 2QFY2016 was maintained at \$2.1 million as compared to 2QFY2015's gross profit of \$2.2 million as the contribution from higher turnover was absorbed by the expenses of the new store.

Other income increased to \$16.1 million for 2QFY2016 from \$3.1 million for 2QFY2015 mainly due to a gain on disposal of Frontier Koishikawa, Tokyo, of \$4.3 million and exchange differences on bank balances of \$6.7 million.

Changes in fair value of short term investments relate to an unrealised fair value loss of \$5.4 million in 2QFY2016 and \$0.2 million in 2QFY2015, of the Group's portfolio of short term equity investments in REITs held by the property division.

In the previous 2QFY2015, impairment of available-for-sale investments relate to an unrealised impairment of the Group's investment in Shui On Land Ltd of \$10.3 million, due to a "significant" and "prolonged" decline in its fair value of the investment below its cost.

General and administrative expenses decreased to \$3.9 million for 2QFY2016 from \$9.5 million for 2QFY2015 mainly due to a reversal of an unrealised exchange loss on bank balances incurred in 1QFY2016.

Share of results of associates decreased to \$5.5 million in 2QFY2016 from \$64.1 million in 2QFY2015 mainly because the previous results in 2QFY2015 included a gain of \$64.2 million representing negative goodwill on acquisition of associates. \$59.3 million of the negative goodwill arose from the recognition of Top Spring as an associate on 1 July 2014.

Share of results of joint ventures decreased to \$5.1 million in 2QFY2016 from \$12.4 million in 2QFY2015 mainly because the previous 2QFY2015 included a fair value gain on the EC Mall investment property of \$8.0 million. EC Mall was sold on 1 April 2015.

Profit before taxation decreased to \$19.1 million in 2QFY2016 from \$61.6 million in 2QFY2015 mainly because of the aforementioned negative goodwill of \$64.2 million recognised in 2QFY2015 in relation to new associates and changes in fair value of short term investments of \$5.2 million. These were partially offset by foreign exchange gains of \$9.4 million in general and administrative expenses and other income in 2QFY2016 as compared to a foreign exchange loss of \$3.1 million in the previous 2QFY2015, and an impairment of available-for-sale investments of \$10.3 million in the previous 2QFY2015.

Segmental Results - Property Division

Turnover of the property division for 2QFY2016 decreased to \$2.3 million from 2QFY2015's \$2.5 million with the disposal of Frontier Koishikawa in August 2015, offset by a 8.8% increase in the value of the Renminbi. Segment results of the property division was a profit of \$16.4 million in 2QFY2016 against a loss of \$2.9 million in 2QFY2015 mainly due to a gain on the disposal of Frontier Koishikawa of \$4.3 million and exchange differences.

However, overall results of the property division for 2QFY2016 decreased to \$20.8 million from 2QFY2015's \$62.0 million mainly due to negative goodwill recognised on acquisition of associates in 2QFY2015 and changes in fair value of short term investments, partially offset by absence of an impairment charge on available-for-sale investments and exchange differences.

The average occupancy of the Group's three investment properties held by a subsidiary and joint ventures as at 30 September 2015 was 90.0%. Metro City, Shanghai's occupancy declined from 89% as at 30 June 2015 as space was vacated for refurbishment work.

The portfolio summary of the Group's Investment Properties as at 30 September 2015 was as follows:

	Percentage Owned	Tenure	No. of Tenants	Occupancy Rate (%)
Owned by a Subsidiary				
GIE Tower, Guangzhou	100%	50 year term from 1994	33	88.4%
Owned by Joint Ventures				
Metro City, Shanghai	60%	36 year term from 1993	136	81.7%
Metro Tower, Shanghai	60%	50 year term from 1993	27	100.0%

Segmental Results - Retail Division

Sales of the Singapore operations of the retail division for 2QFY2016 increased to \$36.0 million from 2QFY2015's \$28.8 million. Most of this was contributed by the new department store at Metro Centrepoint, which commenced operations in 3QFY2015, as well as by the existing stores. After taking into account the operating and overhead expenses of the new store, the overall operating loss was higher at \$2.1 million for 2QFY2016 against 2QFY2015's \$1.2 million.

The retail division's associated company in Indonesia, which also operates in a challenging environment, reported lower sales and profitability as the retail sector softened after the improved performance in 1QFY2016 which coincided with the Hari Raya Puasa season.

8(b) Cash Flow, Working Capital, Assets and Liabilities

Investment Properties (Non-current assets) decreased from \$164.4 million as at 30 June 2015 to \$115.1 million as at 30 September 2015 due to the disposal of Frontier Koishikawa, Tokyo, for a consideration of \$60.1 million (net of expenses). This disposal also had the effect of decreasing bank borrowings (Non-current liabilities) by \$30.7 million in 2QFY2016. The remaining bank borrowings (Current liabilities) of \$29.9 million, were repaid in October 2015.

8(b) Cash Flow, Working Capital, Assets and Liabilities (Cont'd)

Associates (Non-current assets) increased from \$319.4 million as at 30 June 2015 to \$367.3 million as at 30 September 2015 mainly due to an investment in InfraRed NF China Real Estate Fund II (A), L.P. ("Fund II") of \$30.9 million and the Group's share of associates' results for 2QFY2016 of \$5.5 million.

Joint Ventures (Non-current assets) decreased from \$226.8 million as at 30 June 2015 to \$214.8 million as at 30 September 2015 mainly due to the Group's share of joint ventures' results for 2QFY2016 of \$5.1 million, partially offset by dividend distributions of \$23.1 million.

Amounts due to an associate (Current liabilities) decreased from \$108.6 million as at 30 June 2015 to \$100.9 million as at 30 September 2015 mainly due to an amount of \$11.1 million repaid during 2QFY2016.

As a result of the above proceeds which arose from the disposal of Frontier Koishikawa, dividend distributions received and disbursement for the investment in Fund II, and after taking into account a dividend of \$49.7 million paid to shareholders, Cash and cash equivalents fell from \$572.2 million as at 30 June 2015 to \$541.2 million as at 30 September 2015.

There were no other material factors that affected the cash flow, working capital, assets and liabilities of the Group during the current financial quarter reported on.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

There have been no material variances with forecast or prospect statements issued for the period being reported.

10. <u>A commentary at the date of the announcement of the significant trends and competitive</u> conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months

Rental income of the GIE Tower investment property of the property division is expected to remain steady. The rental contribution from Frontier Koishikawa has ceased.

At the joint ventures' level, work continues on the current phase of the reconfiguration of Metro City. Sales of the residential project, The Crest at Prince Charles Crescent in Singapore, remain slow as market sentiment of the residential property sector in Singapore continues to be cautious with no change to the various property cooling measures to manage the housing supply and an uncertain outlook for the Singapore economy.

Our direct associate, the Nanchang project, will continue to recognise sales of properties, as each phase is completed and handed over. The next major phases are scheduled for completion in late 2015. The Nanchang project presold about 23,393 square metres gross floor area in 2QFY2016 for HK\$392.5 million (approximately S\$72.2 million). This brings total sales of the associate to date as at 30 September 2015 to HK\$5.9 billion.

The Group's portfolio of quoted equity investments will continue to be subject to fluctuations in their fair value due to volatile market conditions.

The Group will continue to be subject to significant currency translation adjustments on foreign operations which will affect the results and other comprehensive income, due to volatility in foreign currency exchange rates, as a major portion of its net assets which mainly represent investment properties and projects situated in the People's Republic of China, are denominated in the Chinese Renminbi.

The challenges of a keenly competitive and discounted trading environment, amidst high operating costs, will continue to have an impact on the retail division. Metro Sengkang has ceased operations, Metro City Square will cease operations in late 2015 and The Centrepoint's makeover which commenced in May 2015 continues to affect Metro Centrepoint's sales activities.
