#### Note:

Currency translation adjustments on foreign subsidiaries, associates and joint ventures are mainly a result of the Group's exposure to the effects of fluctuations in foreign currency exchange rates in relation to Chinese Renminbi as the Group's investment properties and projects are situated in the People's Republic of China. Whenever possible, the Group seeks to maintain a natural hedge through the matching of liabilities, including borrowings, against assets in the same currency. Share of other comprehensive income/(expense) of associates and joint ventures mainly relate to similar currency translation adjustments.

Changes in fair value of available-for-sale financial assets mainly relate to fluctuations in the fair value of the Group's investments in Shui On Land Ltd, which are classified under Investments (Non-current assets), as well as Top Spring International Holdings Limited ("Top Spring") up to 1 July 2014.

#### 1(a) (ii) Revenue

Revenue of the Group comprises sales of goods and services and net commission from concessionaires.

#### Note:

The Group, in 4QFY2016, equity accounted for Top Spring's latest available results, which were for the quarter ended 31 December 2015, after making adjustment for such gain or loss on properties under development for sale, already initially recognised in arriving at acquisition date fair value.

\* On 1 July 2014, the Group treated its investment in Top Spring as that of an associate and equity accounted for Top Spring from that acquisition date. The Group performed a purchase price allocation exercise to ascertain the acquisition date fair value of the identifiable assets and liabilities of Top Spring. Based on the professional valuer's report, a transitional negative goodwill of \$59.4 million representing the excess of the Group's share of the acquisition date fair value of Top Spring's net identifiable assets over the purchase consideration of Top Spring that was carried in the Group's balance sheet as at 1 July 2014, was recognised by the Group in 2QFY2015. In Q4FY2015, an adjustment of \$1.9 million was made to the provisional negative goodwill.

In this instance, the excess arose mainly because Top Spring treats its properties under development for sale, classified under inventories, at cost and accounts for sales on the completed contract method whereas acquisition date fair value takes into account the price that would be received to sell the properties under development in an orderly transaction between market participants at measurement date being 1 July 2014.

\*\* In the previous results FY2015, the non-operating results of associates of \$27.0 million refer to a divestment gain from the disposal of the Group's 10.7% interest in the associated companies owning six Tesco Lifespace developments in the People's Republic of China. The tax expense incurred in respect of this divestment gain was \$1.6 million.

### Note:

Results of joint ventures include the results of Metro City, Metro Tower, EC Mall and The Crest.

\* The non-operating results of joint ventures of \$53.7 million for the year ended 31 March 2016 refer to a divestment gain from the disposal of the Group's effective interest of 50% in the joint ventures owning EC Mall, Beijing, People's Republic of China in 1QFY2016. This included exchange differences on translation and other reserves of the joint ventures, totaling \$12.3 million, transferred to profit or loss upon disposal. The taxation charge includes a tax expense incurred in respect of this divestment gain of \$12.0 million.

Other expenses relating to this divestment, offset by realised exchange gains on repayment of shareholders' loans, totaling about \$3.6 million are classified under general and administrative expenses of the Group of \$42.9 million for the year ended 31 March 2016.

# 8(a) Review of Group Results for 4th Quarter ended 31 March 2016 against 4th Quarter ended 31 March 2015

The Group's turnover of \$32.6 million for the fourth financial quarter to 31 March 2016 ("4QFY2016") decreased by 21.9% over 4QFY2015's \$41.7 million as the retail division had ceased operations of Metro Sengkang and Metro City Square. Gross profit for 4QFY2016 decreased to \$3.4 million as compared to 4QFY2015's \$3.6 million as rental contribution from Frontier Koishikawa Building ceased on its disposal.

Other income declined from \$9.6 million in 4QFY2015 to \$2.7 million in 4QFY2016 mainly due to exchange differences.

In the previous 4QFY2015, impairment of plant and equipment of \$8.8 million represented a write down of the costs of plant and equipment of Metro Centrepoint.

Impairment of amount due from a joint venture of \$9.5 million arose from an assessment of the carrying amount of shareholder loan due from a joint venture.

The unrealised deficit from fair value adjustments on investment properties, excluding associates and joint ventures, was \$0.8 million for 4QFY2016 against a gain of \$2.6 million for 4QFY2015 as Koishikawa reported a gain on fair value adjustment in 4QFY2015.

General and administrative expenses increased to \$12.9 million for 4QFY2016 from \$5.4 million for 4QFY2015 mainly because 4QFY2016 included unrealised foreign exchange losses of \$8.3 million on bank balances as against foreign exchange gains of \$1.4 million in 4QFY2015.

Share of results of associates increased to \$8.0 million in 4QFY2016 from \$0.8 million in 4QFY2015 mainly because share of Top Spring's results improved by \$17.0 million. However, this was partially offset by a decreased contribution from the Nanchang project of \$9.7 million due to a deficit from fair value adjustment on investment property and provision for taxes.

Share of results of joint ventures increased to \$10.1 million in 4QFY2016 from \$5.6 million in 4QFY2015 mainly because the previous 4QFY2015 included a higher deficit from fair value adjustment on the Metro City, Shanghai, investment property.

Consequently, profit before taxation decreased to \$1.2 million in 4QFY2016 from \$7.1 million in 4QFY2015.

### Segmental Results - Property Division

Turnover of the property division, comprising the 100% directly held properties, for 4QFY2016 decreased to \$1.8 million from 4QFY2015's \$2.6 million with the disposal of Frontier Koishikawa in August 2015 and a decrease in revenue due to a weakening of the Renminbi of 2.3%. Segment results of the property division, excluding associates and joint ventures, reported a loss of \$8.0 million in 4QFY2016 against a gain of \$6.4 million in 4QFY2015 mainly due to unrealised exchange differences on bank balances.

Our associate, Top Spring, recognised higher profit on completion and handover of properties presold. However, our Nanchang associate reported a deficit on fair value adjustment on investment property against a gain in the prior corresponding 4QFY2015.

Metro City, Shanghai, reported a lower deficit on fair value adjustment of investment property.

The average occupancy of the Group's three investment properties held by a subsidiary and joint ventures as at 31 March 2016 was 91.2%.

The portfolio summary of the Group's Investment Properties as at 31 March 2016 was as follows:

#### Segmental Results - Retail Division

Sales of the Singapore operations of the retail division for 4QFY2016 decreased to \$30.8 million from 4QFY2015's \$39.1 million as sales of Metro City Square and Metro Sengkang ceased with their closure. Lower operating losses at Metro Centrepoint assisted in mitigating the impact of the lack of contribution from the closed department stores.

The retail division's associated company in Indonesia continued to report strong competition for its Jakarta stores. Overall profitability declined marginally.

# 8(b) <u>Cash Flow, Working Capital, Assets and Liabilities of the group during the current financial period reported on</u>

Associates (Non-current assets) decreased from \$411.7 million as at 31 December 2015 to \$396.8 million as at 31 March 2016 mainly due to currency translation adjustment of foreign associates, partially offset by the Group's share of associates' results for 4QFY2016 of \$8.0 million.

Amounts due from associates (Non-current assets) increased from \$63.4 million as at 31 December 2015 to \$70.3 million as at 31 March 2016 mainly due to an amount of \$9.7 million advanced to a United Kingdom associate during 4QFY2016.

Amounts due from joint ventures (Non-current assets) decreased from \$138.6 million as at 31 December 2015 to \$129.0 million as at 31 March 2016 mainly due to an impairment assessment deficit of \$9.5 million on carrying amount due from a joint venture.

Cash and cash equivalents fell from \$518.3 million as at 31 December 2015 to \$493.6 million as at 31 March 2016 mainly due to the loan to the United Kingdom associate of \$9.7 million and disbursement of funds of \$3.8 million in respect of the investment in Scarborough DC Ltd, a joint venture in the United Kingdom.

There were no other material factors that affected the cash flow, working capital, assets and liabilities of the Group during the current financial quarter reported on.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

There have been no material variances with forecast or prospect statements issued for the period being reported.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months

Market concerns about the gradual slowdown of the Chinese economy have diminished confidence. However, residential property markets have experienced greater volatility with values increasing, particularly in cities such as Shanghai and Shenzhen.

Rental income of the GIE Tower investment property of the property division is expected to remain steady.

At the joint ventures' level, asset enhancement work continues on the last two levels of Metro City, Shanghai. Sales of the residential project, The Crest at Prince Charles Crescent in Singapore, continue to be weak and subject to market sentiment of the residential property sector in Singapore which remains cautious.

As our associate in Nanchang has recognised almost all the presales of the residential and ancillary retail properties of the residential sites, its future contribution for the next phase will be principally from the recognition of the presales of office and skirt retail space. Presales of this next phase has commenced and whilst the take up has been encouraging with almost half presold, prices of these properties presold indicate that gross margins of the office component are significantly below those achieved for Nanchang's residential properties.

The Group's portfolio of quoted equity investments will continue to be subject to fluctuations in their fair value due to volatile market conditions.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months (cont'd)

The Group will continue to be subject to significant currency translation adjustments on foreign operations which will affect the results and other comprehensive income and the balance sheet, due to volatility in foreign currency exchange rates, as a major portion of its net assets which mainly represent investment properties and projects situated in the People's Republic of China, are denominated in the Chinese Renminbi.

The retail division continues to face the challenges of a competitive and discounted trading environment, amidst a domestic economy which is slowing down as well as high operating costs. Sales contribution from Metro Sengkang and Metro City Square have ceased with their closure. The Centrepoint's makeover which commenced in May 2015 continues to affect Metro Centrepoint's sales activities.

16. In the review of performance, the factors leading to any material changes in contributions to turnover and earnings by the business or geographical segments

#### Turnover

Group turnover for the financial year to 31 March 2016 ("FY2016") increased to \$154.6 million from \$145.8 million in the previous year ("FY2015") due to higher turnover reported by the retail division as the new store at Metro Centrepoint operated for a full year instead of 5 months in FY2015.

#### Profit Before Tax

The Group's profit before tax for the year declined from \$145.5 million in FY2015 to \$122.3 million in FY2016.

Segment results were adversely affected by an increase in general and administrative expenses to \$42.9 million in FY2016 from \$29.9 million in FY2015 mainly due to unrealised foreign exchange losses on bank balances of \$8.3 million.

An unrealised fair value deficit of \$6.6 million was recorded on changes in fair value of short term investments in FY2016 as compared to FY2015's unrealised gain of \$2.6 million.

The prior FY2015 included an unrealised impairment of available-for-sale investments in Shui On Land Ltd of \$10.3 million. However, FY2016 included an impairment assessment deficit on carrying amount of shareholder loan due from a joint venture of \$9.5 million.

In FY2016, the gain from fair value adjustments on investment properties, including those held by associates and joint ventures increased to \$23.0 million from \$12.5 million in FY2015 with the highest gain from our associate holding the properties in Shama Century Park, Shanghai, of which over one-third has been sold as at 31 March 2016.

Our associate in Nanchang also made a significant contribution of \$46.7 million in FY2016 from \$12.9 million in FY2015 with the completion and recognition of sales of 80.2% of its residential property component.

A one-off gain was recognised in FY2016 from the disposal of the Group's 50% interest in the joint ventures owning EC Mall, Beijing, of \$38.1 million.

In the prior FY2015, from 1 July 2014, the Group treated its investment in Top Spring as that of as associate and equity accounted for Top Spring. Negative goodwill of \$57.4 million was recognised in FY2015.

The prior FY2015 also included a one-off gain, from the disposal of the Group's 10.7% interest in the associated companies owning six Tesco Lifespace developments in the People's Republic of China, of \$21.7 million.

The retail division managed to reduce its operating loss amidst a difficult trading environment. The prior FY2015 had also included a write down of Metro Centrepoint's plant and equipment of \$8.8 million.

### Investments / Balance Sheet

Investment Properties (Non-current assets) decreased from \$168.9 million as at 31 March 2015 to \$106.7 million as at 31 March 2016 due to the disposal of Frontier Koishikawa, Tokyo, for a consideration of \$60.1 million (net of expenses). This disposal also had the effect of decreasing bank borrowings (Current and Non-current liabilities) by \$60.4 million in FY2016.

16. In the review of performance, the factors leading to any material changes in contributions to turnover and earnings by the business or geographical segments (cont'd)

#### Investments / Balance Sheet (cont'd)

Associates (Non-current assets) increased from \$347.1 million as at 31 March 2015 to \$396.8 million as at 31 March 2016 mainly due to an investment in InfraRed NF China Real Estate Fund II (A), L.P. ("Fund II") of \$31.5 million; and share of associates' results for FY2016 of \$75.7 million, partially offset by dividend distribution of \$25.7 million and currency translation adjustment of foreign associates.

Joint Ventures (Non-current assets) decreased from \$286.9 million as at 31 March 2015 to \$216.2 million as at 31 March 2016, mainly due to a dividend distribution of \$136.9 million, partially offset by the Group's share of joint ventures' results for FY2016 of \$68.2 million.

Amounts due from joint ventures (Non-current and Current assets) decreased to \$129.0 million as at 31 March 2016 from \$240.2 million as at 31 March 2015, mainly due to the settlement of shareholder loans using funds derived from the disposal of EC Mall of \$75.2 million, an effective interest rate adjustment of \$22.7 million on interest-free shareholder loans to joint ventures on repayment of loans and an impairment adjustment of \$9.5 million on the carrying amount due from a joint venture.

Short term investments declined to \$33.9 million as at 31 March 2016 from \$49.9 million as at 31 March 2015 mainly due to fair value changes of \$6.6 million and a reduction, through disposals, in the size of the Group's portfolio of short term investments, in view of volatile market conditions and in order to lock in previously unrealised gains.

Amounts due to an associate (Current liabilities) decreased from \$111.1 million as at 31 March 2015 to \$69.1 million as at 31 March 2016 due to an amount of \$37.3 million repaid during the year.

As a result of the above proceeds i.e. dividend distributions received, settlement of amounts due from joint ventures and release of pledged fixed deposits of \$28.8 million less repayment of amounts due to an associate, repayment of bank borrowings and disbursement for the investments in Fund II and Scarborough DC Ltd, and after taking into account a dividend of \$49.7 million paid to shareholders, Cash and cash equivalents rose from \$350.0 million as at 31 March 2015 to \$493.6 million as at 31 March 2016.
