Note:

^{*} As Top Spring International Holdings Ltd ("Top Spring") became an associate of the Group on 1 July 2014, the accumulated changes in the fair value of the investment in Top Spring whilst it was held as an available-for-sale financial assets up to 1 July 2014 of \$30.9 million was reversed to arrive at the purchase consideration of Top Spring.

Statement of Comprehensive Income (Cont'd)

Currency translation adjustments on foreign operations are mainly a result of the Group's exposure to the effects of fluctuations in foreign currency exchange rates in relation to Chinese Renminbi as the Group's investment properties are situated in the People's Republic of China. Whenever possible, the Group seeks to maintain a natural hedge through the matching of liabilities, including borrowings, against assets in the same currency. Share of other comprehensive income/(expense) of associates and jointly controlled entities mainly relate to similar currency translation adjustments.

Changes in fair value of available-for-sale financial assets mainly relate to fluctuations in the fair value of the Group's investments in Shui On Land Ltd, which are classified under Investments (Non-current assets), as well as Top Spring up to 1 July 2014.

Note:

* On 1 July 2014, the Group treated its investment in Top Spring International Holdings Ltd ("Top Spring") as that of an associate and equity accounted for Top Spring from that acquisition date. In accordance with FRS 103, the Group performed an exercise to ascertain the acquisition date fair value of the identifiable assets and liabilities of Top Spring. Based on the professional valuers' report, a transitional negative goodwill of \$59.3 million representing the excess of the Group's share of the acquisition date fair value of Top Spring's net identifiable assets over the purchase consideration of Top Spring that was carried in the Group's balance sheet as at 1 July 2014, was recognised by the Group in 2QFY2015.

In this instance, the excess arose mainly because Top Spring treats properties under development for sale, classified under inventories, at cost and accounts for sales on the completed contract method whereas acquisition date fair value takes into account the price that would be received to sell the properties under development in an orderly transaction between market participants at measurement date being 1 July 2014. In future accounting periods, the Group will equity account for Top Spring's results after making adjustment for such gain on properties under development for sale, already initially recognised above in arriving at acquisition date fair value.

The tax charge of the Group for the period ended 30 September 2014, excluding share of results of associates and jointly controlled entities which is already stated net of tax, is higher than that derived by applying the Singapore statutory income tax rate of 17% applicable to company profits, mainly due to higher tax rates applied to overseas subsidiaries and expenditure not deductible for tax purposes.

5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change (Cont'd)

Financial Reporting Standards ("FRS") which became effective for the Group's financial period beginning 1 April 2014 are:

Revised FRS 27 Separate Financial Statements

Revised FRS 28 Investments in Associates and Joint Ventures

FRS 110 Consolidated Financial Statements

FRS 111 Joint Arrangements

FRS 112 Disclosure of Interest in Other Entities

FRS 32 Offsetting Financial Assets and Financial Liabilities

FRS 110, FRS 111 and FRS 112 Amendments to the transition guidance of FRS 110 Consolidated Financial Statements, FRS 111 Joint Arrangements and FRS 112 Disclosure of Interests in Other Entities

FRS 110, FRS 112 and FRS 27 Amendments to FRS 110, FRS 112 and FRS 27: Investment Entities

FRS 36 Amendments to FRS 36: Recoverable Amount Disclosures for Non-financial Assets

FRS 39 Amendments to FRS 39: Novation of Derivatives and Continuation of Hedge Accounting Improvements to FRSs (January 2014)

Improvements to FRSs (February 2014)

FRS 111 Joint Arrangements and Revised FRS 28 Investments in Associates and Joint Ventures are the FRS which have a significant impact on the Group.

FRS 111 classifies joint arrangements either as joint operations or joint ventures. Joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets and obligations for the liabilities of the arrangement whereas a joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement.

FRS 111 requires the determination of joint arrangement's classification to be based on the parties' rights and obligations under the arrangement, with the existence of a separate legal vehicle no longer being the key factor. FRS 111 disallows proportionate consolidation and requires joint ventures to be accounted for using the equity method. The revised FRS 28 was amended to describe the application of the equity method to investments in joint ventures in addition to associates.

The Group previously applied proportionate consolidation for its joint ventures and combined its share of each of the assets, liabilities, income and expenses of the joint venture with the similar items, line by line, in its consolidated financial statements. Upon adoption of FRS 111, the Group equity accounts for these joint ventures and presents its share of the assets and liabilities of these joint ventures as a single line item – being the Group's share of the net assets of the joint ventures. Similarly, the Group's share of each of the income and expenses is presented as a single line item – being the Group's share of joint ventures' results, net of tax. As compared with the previous presentation, assets, liabilities, income and expenses line by line therefore decreased. Comparatives have been restated to that presented under equity accounting for joint ventures.

5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change (Cont'd)

In accordance with FRS 111, this change in accounting policy was applied retrospectively. Accordingly, the effects of the Group's financial statements from the adoption of FRS 111 are as follows:

8(a) Review of Group Results for 2nd Quarter ended 30 September 2014 against 2nd Quarter ended 30 September 2013 (Restated)

The Group's turnover of \$31.3 million for the second financial quarter to 30 September 2014 ("2QFY2015"), decreased by 5.1% over 2QFY2014's \$33.0 million due to lower reported turnover of the retail division. Gross profit for 2QFY2015 was lower at \$2.2 million as compared to 2QFY2014's \$3.8 million due to GIE Tower's lower rental and the retail division's higher operational costs.

Other income was higher for 2QFY2015 at \$3.3 million mainly due to gains on disposal of short term investments of \$0.3 million in 2QFY2015 against a loss on disposal of short term investments of \$1.8 million in 2QFY2014. This was partially offset by a decrease of \$1.7 million in dividends.

In the previous 2QFY2014, the Company completed the sale of a freehold warehouse property in Singapore which resulted in a gain on disposal of asset held for sale of \$29.6 million.

Changes in fair value of short term investments relate to unrealised fair value loss of \$0.2 million in 2QFY2015 as compared to \$0.7 million in 2QFY2014 of the Group's portfolio of short term equity investments in REITs held by the property division.

Impairment of available-for-sale investments relate to an unrealised impairment of the Group's investment in Shui On Land Ltd of \$10.3 million, due to a "significant" and "prolonged" decline in its fair value of the investment below its cost.

Share of results of associates was a gain of \$64.1 million in 2QFY2015 against a loss of \$0.2 million in 2QFY2014 mainly due to a gain of \$64.2 million representing negative goodwill on acquisition of associates. \$59.3 million of the gain arose from the treatment of Top Spring as an associate (see note under 1(a)(iv) on page 5) and \$4.9 million arose from the acquisition of Fairbriar Real Estate Ltd (formerly Scarborough Real Estate Ltd).

Share of results of jointly controlled entities rose from \$6.0 million in 2QFY2014 to \$12.4 million in 2QFY2015 mainly due to unrealised fair value gains from investment properties of \$5.3 million. In addition, EC Mall reported higher rental income.

Profit before taxation rose to \$61.6 million in 2QFY2015 from \$31.1 million in 2QFY2014 mainly because of the aforementioned gain arising from the recognition of negative goodwill on acquisition of associates and unrealised fair value gains from investment properties in jointly controlled entities partially offset by the impairment of available-for-sale investments and the absence of the gain on disposal of asset held for sale in 2QFY2014.

Segmental Results - Property Division

Turnover of the property division for 2QFY2015 decreased to \$2.5 million from 2QFY2014's \$2.8 million mainly due to lower occupancy at GIE Tower. In addition, the Renminbi weakened by 1.4%. Segmental results of the property division were also affected by a foreign exchange loss realised on repayment of shareholders loans of \$3.2 million.

At the jointly controlled entity level, EC Mall's contribution improved with higher rental rates as well as an additional 18.4% equity share of its results. The Crest at Prince Charles Crescent in Singapore also made its maiden contribution to revenue at the jointly controlled entity level.

The average occupancy of the Group's five investment properties as at 30 September 2014 was 93.7%. Towards the end of 2QFY2015, GIE Tower's occupancy rose from 78.3% to 86%. However, Metro City's occupancy declined from 91.3% as at 30 June 2014 to 84.9% as at 30 September 2014 as tenants vacated space for the next phase of refurbishment.

The portfolio summary of the Group's Investment Properties as at 30 September 2014 was as follows:

	Percentage Owned	Tenure	No. of Tenants	Occupancy Rate (%)
Owned by Subsidiaries				
GIE Tower, Guangzhou	100%	50 year term from 1994	34	86.0%
Frontier Koishikawa Building, Tokyo	100%	Freehold	6	100%

Metro City, Shanghai	60%	36 year term from 1993	105	84.9%
Metro Tower, Shanghai	60%	50 year term from 1993	26	98.2%
EC Mall, Beijing	50%	50 year term from 2001	92	99.2%

Segmental Results - Retail Division

Sales of the Singapore operations of the retail division for 2QFY2015 decreased to \$28.8 million from 2QFY2014's \$30.2 million in the midst of a competitive retail trade. Operating results were also affected by higher operating expenses as well as preopening expenses incurred for the upcoming Metro Centrepoint.

The retail division's associated company in Indonesia reported improved sales but continues to contend with high operating costs.

8(b) Cash Flow, Working Capital, Assets and Liabilities

For 2QFY2015, Associates and Amounts due from associates increased from \$83.6 million and \$112.6 million as at 30 June 2014 to \$280.0 million and \$120.3 million as at 30 September 2014 respectively, mainly due to the Group's treatment of its investment in Top Spring of \$117.7 million as an associated company with effect from 1 July 2014; the acquisition of a 25% interest in Fairbriar Real Estate Limited ("Fairbriar"), a company that effectively owns two predominantly residential development land sites in Manchester, United Kingdom, which required funding of \$19.5 million; and share of associates' results for 2QFY2015 of \$64.1 million, which mainly comprised negative goodwill on acquisition of associates.

Investments (Non-current assets) consequently decreased to \$40.5 million as at 30 September 2014 from \$128.4 million as at 30 June 2014, mainly due to the derecognition of the available-for-sale investment of \$86.6 million in Top Spring.

Accounts and other receivables rose from \$8.9 million as at 30 June 2014 to \$13.2 million as at 30 September 2014 due to the accrual of a dividend receivable.

Cash and cash equivalents fell from \$246.5 million as at 30 June 2014 to \$146.3 million as at 30 September 2014 as funds of \$19.5 million were disbursed for the investment in Fairbriar, \$23.5 million was invested in short term investments and a dividend of \$49.7 million paid to shareholders.

There were no other material factors that affected the cash flow, working capital, assets and liabilities of the Group during the current financial quarter reported on.

Sales of the residential project, The Crest at Prince Charles Crescent in Singapore, is currently being soft launch previewed. Market sentiment of the residential property sector in Singapore continues to be cautious following the implementation of various property cooling measures to manage the housing supply and real estate prices. The residential properties of the Nanchang project continue to be sold in phases. About 114,680 square metres gross floor area was presold in 2QFY2015 for HK\$1,912.4 million (approximately S\$313.6 million). This brings total sales of the associate to date as at 30 September 2014 to HK\$3.6 billion. Completion of the first phase for handover of the Nanchang project is currently scheduled for late 2014/early 2015.

With Top Spring being treated as an associate from 1 July 2014, its results will be included in future reporting periods after such relevant adjustments as referred to in note 1(a)(iv).

The Group's portfolio of quoted equity investments will continue to be subject to fluctuations in their fair value due to volatile market conditions. The Group will continue to be subject to significant currency translation adjustments on foreign operations, due to volatility in foreign currency exchange rates, as a major portion of its net assets which mainly represent investment properties situated in the People's Republic of China, are denominated in the Chinese Renminbi.
